

Offshore Radio People – Roll of Honour

It was Paul Bailey who came with the idea to compile a list containing, in alphabetical order, all the names of people who have been involved, in one way or another, in offshore radio over many decades. At some point he asked me to help think about it and it must have been in 2019 that I first added names. Herewith the list with especially the request should a name be missing to report this to me via HKnot@home.nl

Where surnames are unknown, for example *Dennis, ?*, persons are listed by their first name instead. And as the station names are not mentioned this could be a nice way to play a game together with other radio friends.
